**TABLE OF CONTENTS ..... i**

**LIST OF FIGURES .....v**

**LIST OF TABLES .....x**

**1 EXECUTIVE SUMMARY ..... 1-1**

Location and Site Description..... 1-3

Project Description..... 1-4

Required Approvals ..... 1-5

Scoping ..... 1-7

Project Purpose, Need and Benefits..... 1-7

Environmental Conditions, Probable Impacts, and Mitigation Measures .. 1-8

Alternatives and Their Impacts ..... 1-47

Unavoidable Adverse Impacts ..... 1-54

Irreversible and Irretrievable Commitment of Resources..... 1-55

Growth-Inducing Aspects of the Project..... 1-55

Displacement..... 1-55

Use and Conservation of Energy ..... 1-56

**2 DESCRIPTION OF THE PROPOSED ACTION..... 2-1**

2.1 Introduction..... 2-1

2.2 Project Location and Site Description ..... 2-3

2.3 Description of the Proposed Action ..... 2-22

2.4 Required Approvals ..... 2-33

2.5 Scoping ..... 2-62

2.6 Project Purpose, Need and Benefits..... 2-64

**3 EXISTING ENVIRONMENTAL CONDITIONS, PROBABLE IMPACTS AND MITIGATION MEASURES ..... 3-1**

3.1 Geology..... 3-1

3.1.1 Soils ..... 3-1

Existing Environmental Conditions ..... 3-1

Probable Impacts..... 3-5

Mitigation Measures ..... 3-7

3.1.2 Subsurface Geology..... 3-8

Existing Environmental Conditions ..... 3-8

Probable Impacts..... 3-14

Mitigation Measures ..... 3-16

3.1.3 Topography..... 3-20

Existing Environmental Conditions..... 3-20

Probable Impacts..... 3-22

Mitigation Measures ..... 3-24

3.2 Terrestrial Ecology..... 3-25

Existing Environmental Conditions .....	3-25
Probable Impacts.....	3-27
Mitigation Measures .....	3-28
3.3 Water Resources .....	3-29
3.3.1 Groundwater .....	3-29
Existing Environmental Conditions.....	3-29
Probable Impacts.....	3-35
Mitigation Measures .....	3-38
3.3.2 Surface Water .....	3-39
Existing Environmental Conditions.....	3-39
Probable Impacts.....	3-39
Mitigation Measures .....	3-40
3.3.3 Erosion and Stormwater Impact .....	3-41
Existing Environmental Conditions.....	3-41
Probable Impacts.....	3-42
Mitigation Measures .....	3-46
3.4 Land Use and Zoning.....	3-48
3.4.1 Land Use.....	3-48
Existing Environmental Conditions.....	3-48
Probable Impacts.....	3-55
Mitigation Measures .....	3-68
3.4.2 Zoning.....	3-74
Existing Environmental Conditions.....	3-74
Probable Impacts.....	3-78
Mitigation Measures .....	3-78
3.4.3 Area Plans.....	3-79
Existing Environmental Conditions.....	3-79
Probable Impacts.....	3-79
Mitigation Measures .....	3-79
3.5 Transportation.....	3-79
3.5.1 Study Methodology .....	3-79
3.5.2 Existing Conditions .....	3-82
3.5.3 Future Conditions and Proposed Development .....	3-95
3.5.4 Traffic Impact Analysis .....	3-106
3.5.5 Parking Study.....	3-117
3.6 Air Quality .....	3-133
3.6.1 Vehicle Impacts on Air Quality.....	3-134
Existing Environmental Conditions.....	3-134
Probable Impacts.....	3-135
Mitigation Measures .....	3-143
3.6.2 Stationary Source Impacts on Air Quality.....	3-143
Existing Environmental Conditions.....	3-143
Probable Impacts.....	3-145
Mitigation Measures .....	3-146
3.6.3 Asbestos and Lead-based Paint .....	3-147
Existing Environmental Conditions.....	3-147

Probable Impacts.....	3-149
Mitigation Measures .....	3-151
3.6.4 Odors.....	3-151
Existing Environmental Conditions.....	3-151
Probable Impacts.....	3-153
Mitigation Measures .....	3-154
3.7 Noise.....	3-155
Existing Environmental Conditions.....	3-155
Probable Impacts.....	3-161
Mitigation Measures .....	3-162
3.8 Visual Resources.....	3-165
Existing Environmental Conditions.....	3-165
Probable Impacts.....	3-165
Mitigation Measures .....	3-185
3.9 Community Facilities and Services .....	3-185
3.9.1 Community Services.....	3-185
Existing Environmental Conditions.....	3-186
Probable Impacts.....	3-187
Mitigation Measures .....	3-188
3.9.2 Solid Waste.....	3-188
Existing Environmental Conditions.....	3-188
Probable Impacts.....	3-195
Mitigation Measures .....	3-196
3.9.3 Water Supply .....	3-197
Existing Environmental Conditions.....	3-198
Probable Impacts.....	3-198
Mitigation Measures .....	3-199
3.9.4 Sewage.....	3-202
Existing Environmental Conditions.....	3-202
Probable Impacts.....	3-203
Mitigation Measures .....	3-204
3.9.5 Electric Service.....	3-204
Existing Environmental Conditions.....	3-204
Probable Impacts.....	3-205
Mitigation Measures .....	3-205
3.9.6 Gas Service .....	3-205
Existing Environmental Conditions.....	3-205
Probable Impacts.....	3-207
Mitigation Measures .....	3-207
3.10 Socio-Economics .....	3-208
3.10.1 Demographics .....	3-208
Existing Environmental Conditions.....	3-208
Probable Impacts.....	3-212
Mitigation Measures .....	3-212
3.10.2 Economics.....	3-213
Existing Environmental Conditions.....	3-213

Probable Impacts..... 3-219  
Mitigation Measures ..... 3-221

**4 ALTERNATIVES AND THEIR IMPACTS ..... 4-1**

4.1 Introduction..... 4-1  
4.2 No-Action Alternative ..... 4-1  
4.3 Alternate Location Alternative ..... 4-24  
4.4 Reduced Density Alternative ..... 4-26  
4.5 Alternative Location and/or Enclosure of Service and Delivery Area ..... 4-30

**5 UNAVOIDABLE ADVERSE IMPACTS OF THE PROJECT ..... 5-1**

5.1 Introduction..... 5-1  
5.2 Short-Term Impacts ..... 5-1  
5.3 Long-Term Impacts ..... 5-2

**6 IRREVERSIBLE AND IRRETRIEVABLE COMMITMENT OF RESOURCES ..... 6-1**

**7 GROWTH-INDUCING ASPECTS OF THE PROJECT ..... 7-1**

7.1 Introduction..... 7-1  
7.2 Growth-Inducing Aspects ..... 7-1  
7.3 Displacement..... 7-2

**8 USE AND CONSERVATION OF ENERGY ..... 8-1**

**BIBLIOGRAPHY ..... Bibliography-1**

## **LIST OF FIGURES**

<b><u>Figure</u></b>	<b><u>Page</u></b>
2-1 Map of western Long Island showing the location of the project site for the St. Francis Hospital Facilities Master Plan Project.....	2-4
2-2 Section of the Sea Cliff USGS Topographic Quadrangle showing the location of the project site.....	2-5
2-3 Aerial photograph showing existing structures, roadways, walkways, and other site improvements.....	2-7
2-4 Existing landscaping on the St. Francis Hospital campus.....	2-8
2-5 Aerial photograph showing existing traffic circulation.....	2-9
2-6 Existing utilities and subsurface structures on the St. Francis Hospital campus.....	2-11
2-7 Aerial photograph of the area around St. Francis Hospital.....	2-13
2-8 Aerial photograph looking west at area around St. Francis Hospital.....	2-14
2-9 Aerial photograph looking north at area around St. Francis Hospital.....	2-15
2-10 Aerial photograph looking east at area around St. Francis Hospital.....	2-16
2-11 Aerial photograph looking south at area around St. Francis Hospital.....	2-17
2-12 Architect’s model of project site showing proposed configuration.....	2-18
2-13 Site Plan for St. Francis Hospital Master Facilities Project.....	2-25
2-14 Architect’s model of project site showing proposed configuration.....	2-26
2-15 Architect’s model of project site showing proposed configuration in plan view.....	2-27
2-16 Make Ready Work Plan.....	2-34
2-17 Construction Plan 1, Month 1.....	2-35
2-18 Construction Plan 2, Months 2 - 3.....	2-36
2-19 Construction Plan 3, Months 4 - 5.....	2-37
2-20 Construction Plan 4, Month 6.....	2-38
2-21 Construction Plan 5, Month 7.....	2-39
2-22 Construction Plan 6, Month 8.....	2-40
2-23 Construction Plan 7, Month 9.....	2-41
2-24 Construction Plan 8, Month 10.....	2-42
2-25 Construction Plan 9, Month 11.....	2-43
2-26 Construction Plan 10, Month 12.....	2-44

<b><u>Figure</u></b>	<b><u>Page</u></b>
2-27 Construction Plan 11, Month 12 .....	2-45
2-28 Construction Plan 12, Month 13 .....	2-46
2-29 Construction Plan 13, Month 14 .....	2-47
2-30 Construction Plan 14, Month 15 .....	2-48
2-31 Construction Plan 15, Month 16 .....	2-49
2-32 Construction Plan 16, Month 17 .....	2-50
2-33 Construction Plan 17, Months 18 -19 .....	2-51
2-34 Construction Plan 18, Month 20 .....	2-52
2-35 Construction Plan 19, Month 21 .....	2-53
2-36 Construction Plan 20, Month 22 .....	2-54
2-37 Construction Plan 21, Month 23 .....	2-55
2-38 Construction Plan 22, Month 24 .....	2-56
2-39 Construction Plan 23, Months 25 - 34 .....	2-57
2-40 Landscape Plan for the St. Francis Hospital MFP .....	2-58
3-1 Section of the General Soil Map from the 1987 Soil Survey of Nassau County, New York. ....	3-2
3-2 The soil type identified on the project site .....	3-3
3-3 Map of Manhasset Neck showing the assumed bedrock contours .....	3-9
3-4 Hydrogeologic section of Manhasset Neck showing the assumed locations of the various strata .....	3-11
3-5 Model of construction vibrations as a function of distance from source .....	3-19
3-6 Location and physiographic features of Long Island .....	3-21
3-7 Section of the USGS Sea Cliff Topographical Quadrangle Map showing the area’s topography .....	3-23
3-8 Location of St. Francis Hospital in Hydrogeological Zone I and location of St. Francis Hospital in relation to the North Hills Special Ground- Water Protection Area (SGPA) .....	3-30
3-9 Map of Manhasset Neck showing wedges of saltwater intrusion .....	3-33
3-10 Locations of aboveground, belowground, abandoned in place, and removed storage tanks used for #2 fuel oil .....	3-36
3-11 Land Use Map of the area within a one-mile radius of St. Francis Hospital .....	3-49
3-12 Location of major activities and operations on the Hospital campus .....	3-51
3-13 Toxics Targeting selected toxic sites for Flower Hill .....	3-56

<b><u>Figure</u></b>	<b><u>Page</u></b>
3-14	Anticipated traffic circulation at conclusion of proposed project..... 3-57
3-15	Site lighting plan for the proposed project..... 3-61
3-16	Examples of lampposts and bollards for the proposed project ..... 3-62
3-17	Index map of photographs looking toward the service and loading dock area..... 3-64
3-18	Views 1 to 3 toward the service and loading dock area from Crabapple Road ..... 3-65
3-19	Views 4 and 5 toward the service and loading dock area from Crabapple Road ..... 3-66
3-20	Portion of the Official Zoning Map for the Incorporated Village of Flower Hill ..... 3-75
3-21	Peak hour turning movement counts at the two Hospital access driveways for the weekday A.M. period..... 3-87
3-22	Peak hour turning movement counts at the two Hospital access driveways for the weekday P.M. period ..... 3-88
3-23	Expected directions of approach and departure for the new traffic generated by the expansion of the Hospital ..... 3-98
3-24	Assignment of new traffic volumes generated by the Hospital during peak A.M. weekday hours of traffic ..... 3-100
3-25	Assignment of new traffic volumes generated by the Hospital during peak P.M. weekday hours of traffic ..... 3-101
3-26	Estimates of total future traffic volumes during peak A.M. weekday hours of traffic after Hospital expansion..... 3-102
3-27	Estimates of total future traffic volumes during peak P.M. weekday hours of traffic after Hospital expansion..... 3-103
3-28	Recommended Roadway Modifications ..... 3-109
3-29	Existing parking spaces..... 3-119
3-30	Two-day average of number of on-site parking spaces occupied..... 3-124
3-31	Two-day average percentage of on-site parking spaces occupied ..... 3-125
3-32	Two-day average percentage of parking spaces occupied in East Garage .... 3-126
3-33	Diagram showing the location of exhaust vents and receptor sites used in the Air Quality Study ..... 3-138
3-34	Location of the proposed sound barrier wall ..... 3-158
3-35	Simulation of view toward the northwest showing proposed one-story structure, left of center, and proposed three-story Hospital building at center..... 3-166

<b><u>Figure</u></b>	<b><u>Page</u></b>
3-36 Simulation of view toward the northwest showing proposed new one-story entry, left of center, and proposed three-story Hospital building right of center .....	3-167
3-37 Rendering of east elevation with proposed three-story Hospital building to the right and a portion of proposed East Garage expansion right of center .....	3-168
3-38 Cross sections modeled to show point-of-view lines south from Oaktree Lane and west to east from Crabapple Road to Northern Boulevard .....	3-169
3-39 Locations and view directions of photographs used to evaluate visual impacts of project on surrounding neighborhood .....	3-171
3-40 Views 1 to 4 toward the Hospital from surrounding roads .....	3-172
3-41 Views 5 to 8 toward the Hospital from surrounding roads .....	3-173
3-42 Views 9 to 12 toward the Hospital from surrounding roads .....	3-174
3-43 Views 13 to 16 toward the Hospital from surrounding roads .....	3-175
3-44 Views 17 to 20 toward the Hospital from surrounding roads .....	3-176
3-45 Views 21 to 24 toward the Hospital from surrounding roads .....	3-177
3-46 Views 25 to 28 toward the Hospital from surrounding roads .....	3-178
3-47 Views 29 to 32 toward the Hospital from surrounding roads .....	3-179
3-48 Views 33 to 36 toward the Hospital from surrounding roads .....	3-180
3-49 Views 37 to 40 toward the Hospital from surrounding roads .....	3-181
3-50 Views 41 to 43 toward the Hospital from surrounding roads .....	3-182
3-51 Views 44 to 45 toward the Hospital from surrounding roads .....	3-183
3-52 Sani-Pak Unit in service area .....	3-191
3-53 Rate of litter, separated by type, along the west side of Port Washington Boulevard north, in front, and south of St. Francis Hospital .....	3-193
3-54 Total rate of litter along the west side of Port Washington Boulevard north, in front, and south of St. Francis Hospital .....	3-194
3-55 Existing natural gas and 13,200 volt and 480 volt electric utilities on the St. Francis Hospital campus .....	3-206
3-56 Age of population for Village of Flower Hill (Census Tract 3016), Nassau County, and New York State .....	3-209
3-57 Percentage of households that are classified as being within certain household types .....	3-210
3-58 Percent of population 25 years of age and over who are high school graduates or higher and who have received Bachelor’s degrees or higher ....	3-211

<b><u>Figure</u></b>	<b><u>Page</u></b>
3-59 Educational attainment by percentage of the population 25 years of age or over for the Village of Flower Hill (Census Tract 3016), Nassau County, and New York State .....	3-212
3-60 Employment status for population over 16 years of age, females over 16 years of age, the percentage of children with all parents in their family in the labor force .....	3-213
3-61 Percentages of population in labor force employed in selected occupation categories.....	3-214
3-62 Percentage of population in the labor force involved in selected industry groupings.....	3-215
3-63 Percent of households in income groupings in the Village of Flower Hill (Census Tract 3016), Nassau County, and New York State .....	3-216
3-64 Comparison of renter-occupied and owner-occupied housing units in the Village of Flower Hill, Nassau County, and New York State .....	3-217
3-65 Comparison of the number of rooms in occupied housing units in the Village of Flower Hill, Nassau County, and New York State .....	3-218
3-66 Comparison of the value of housing units in the Village of Flower Hill, Nassau County, and New York State.....	3-218
3-67 Staffing levels at St. Francis Hospital showing current staffing and new staffing to be added after completion of the Master Facilities Project .....	3-220
4-1 Alternate location alternative .....	4-25
4-2 Reduced density alternative .....	4-27

**LIST OF TABLES**

<b><u>Table</u></b>	<b><u>Page</u></b>
2-1 Area Hospitals Ranked by Number of Beds And Showing Rate of Occupancy.....	2-70
3-1 Pumpage on Manhasset Neck, by Aquifer, 1992-1996 .....	3-31
3-2 Accident Summary, NYS Route 101, Port Washington Boulevard .....	3-89
3-3 Existing St. Francis Hospital Facility, Comparison of ITE Methodology with Hospital Driveway Counts .....	3-92
3-4 Site Generated Traffic Estimate, Proposed Expansion .....	3-97
3-5 Summary of Signalized Intersection Capacity Analyses Results .....	3-105
3-6 Parking Occupancy Study Results - Two Day Average Demand.....	3-122
3-7 Predicted Carbon Monoxide Concentrations at Receptor Locations on Hospital Campus Boundary .....	3-142
3-8 Summary of Asbestos-Containing Materials in Buildings to be Demolished .....	3-148
3-9 Summary of Lead-Based Paint Components in Buildings to be Demolished .....	3-149
3-10 St. Francis Hospital Loading Dock Noise Sources.....	3-160
3-11 St. Francis Hospital Loading Dock Noise Sources, Typical Noise Levels at the South west property Line.....	3-163
3-12 Common responses to Increase and Reduction of Noise Levels .....	3-164
3-13 The Amount and Rate of Litter North, In Front, and South of St. Francis Hospital Along West Side of Port Washington Boulevard.....	3-192
3-14 Summary of Existing and estimated Water Consumption.....	3-199
3-15 Staffing Categories and Number Of Staff at St. Francis Hospital in 2001.....	3-219
3-16 Staffing Categories and Staffing Levels Prior to and After Project Completion.....	3-220
4-1 Comparisons of Characteristics and Impacts of Proposed, No Build, Alternate Location, and Reduced Density Alternatives.....	4-2
